Anderol® C-NRT 68

Anderol® Industrial lubricants compressors and vacuum pumps

Description

Inert Synthetic Compressor Lubricant

Anderol® C-NRT 68 is a unique, extremely stable synthetic based compressor lubricant.

It is specifically designed to provide inertness and long-term lubrication in industrial applications, where contact with (reactive) chemistries cannot be avoided.

Where any other chemistry fails, this product will withstand attacks of all aggressive gasses and resist the rapid breakdown which is unavoidable with any other mineral/ester/PAO based product.

The complementary thermal and oxidative stability of the base fluid in combination with oxidation inhibitors, extends lubricant life at elevated temperature conditions.

Thanks to its excellent detergency effect deposit/lacquering formation is avoided.

Features and Benefits

- Chemically inert to chemical gasses of acidic nature.
- No metal additives to interfere with catalytic processes.
- Increases maintenance intervals.
- Greatly reduces fire and explosion hazard.
- · Very good water separation.
- · Lower oil consumption.
- · Eliminates lacquering and deposits completely.
- Reduces energy consumption.

Compatibility

Anderol® synthetic hydrocarbon based lubricants are similar to mineral oils in their compatibility with paints, seals, gaskets and hoses. No special precautions related to compatibility are required when changing over from a mineral oil lubricant to an **Anderol**® synthetic hydrocarbon based lubricant.

Lubricant Additives Business

Anderol® C-NRT 68

Anderol® Industrial lubricants compressors and vacuum pumps

Application

Recommended for use in centrifugal and screw compressor for the following gases:

Air Fluoride gasses Nitrogen
Butadiene Helium Propane

Carbon Monoxide Hydrogen Synthesis gas

Furnace (crack) gas Hydrogen Sulfide (dry) Sulfur Hexafluoride

Carbon Dioxide (dry)

Natural gas

Bio gas

Ethylene Methane

Nominal Operating Range -40°C to 170 °C.

Technical data*

PROPERTY	METHOD	ANDEROL C-NRT 68
ISO VG	ASTM D-2422	68
Appearance @ 20°C	Visual	Clear Yellow Liquid
Viscosity @ 40°C, cSt	ASTM D-445	64.5
Viscosity @ 100°C, cSt	ASTM D-445	9.7
Viscosity Index	ASTM D-2270	133
Density @ 15°C, kg/l	ASTM D-1298	0.856
Total Acid Number, mg KOH/g	ASTM D-664	0.03
Flash Point, °C	ASTM D-92	234
Pour Point, °C	ASTM D-97	<-56
Demulsibility @ 54°C, min	ASTM D-1401	15
